ABOUT ME

I'm 29 years old and originally from Argentina. Since 2019, I immersed myself in the programming realm, pursuing studies at the university and through self-guided learning. My entry into the industry occurred in early 2022. I take pride in quick learning and versatile adaptability. Problem-solving brings me immense satisfaction, and I maintain a strong commitment to the functionality and intricacies of my projects. Focused on establishing a lasting partnership and contributing to mutual growth with the company.

WORK EXPERIENCE

(February/2022 - December/2023)
Newsan - Full Stack Developer
ANGULAR - .NET - SQL SERVER
Designing and implementing modules in the industrial programming office, currently employed across various sectors of the company.
